THURSDAY, NOVEMBER 11. 1742.

Yesterday arriv'd a Mail from France.

Moscow, Oct. 10.

THE Return of the Court to Petersbourg stands fix'd for the Middle of next Month. Mr. Buchwald, Chamberlain to the Duke of Holstein, is set out for Keil, in order to execute a Commission of Importance there. He is to go from thence to Stockholm, in order to support the Rights of his Master to the Succession; his Royal Highness, at the Request of many of the Swedish Nobility, having determin'd not to relinquish his Claim to the Throne of his Ancestors.

Vienna, Oct. 30. The 20th Day of this Month being the Anniversary of the Death of the Emperor Charles VI. the same was celebrated with all proper Marks of deep and undissembled Sorrow. Two Days before, the Tomb of his late Majesty was perfectly finished, and exposed to publick View. It is allowed by the best Judges to be a most elegant Piece of Sculpture. The Genius of Austria is represented as lifting with one Hand the Portrait of his Imperial Majesty to the Sky, and with the other crowning him with the Diadem of Immortality. We read beneath, the two following Inscriptions.

Extract of a Private Letter written by an Officer in M. Maillebois' Army, Nov. 5,

We left Egra the 25th of last Month, and directed our Route by Mitterteich, Falkenbourg, Luetz, Naaburg, and Schuandorff, where we passed the Naab, Arglenfeld, and Regenstauff. From the last-mention'd Place we arrived this Day on the Banks of the Danube. Our Right extends towards Donaustauff, our Left is stretched to Stadtamhoff. Here we are to wait for the coming up of the rest of the Army, but what is to become of us next, nobody can tell. Some say, that we are to march to Passau, in order to form the Siege of that Place; but it seems much more probable, that we shall separate, and go into Winter-Quarters in Bavaria.

This is a Step which the horrible Fatigues we have sustained in twelve Weeks Marching and Countermarching, and the extreme Rigour of the Season, which almost finished the Ruin of our Troops, loudly call upon us to take; (*nous conseillent hautement de prendre*) after all, we must first see whether our Enemies, who are more used to this Climate, and these Fatigues, are at last of the same Mind; for if they are not, we must just do what they are pleased to have us.'

Dresden, Nov. 5. Count Bunau, whom his Majesty appointed his Minister Extraordinary and Plenipotentiary to the Queen of Hungary, will enter Vienna to-day, and to-morrow we expect Count Esterhasi her Minister here. As it is stipulated in the Declaration of Peace signed by the Queen of Hungary on the 23d, and by our Sovereign on the 28th of July last, That an Alliance between the two Courts should be perfected within the Space of four Weeks from the Time of the Exchange of those Declarations; which Exchange was solemnly made on Sept. 9. in Presence of P. Guarini, and the Ministers Kayserling and Villers, we infer from this that a Rupture sending Ministers Plenipotentiaries, that this Peace is actually concluded, and that we shall soon feel the Effects. In the mean time it is certain, that in the Negotiations before-mentioned, there is not a Syllable of any Concession to be made to our Court, notwithstanding what has been so often said on that Head in the Gazetteer. We are this Moment inform'd, that 8,000 Foot, and 4,000 Horse and Dragoons, have received Orders to march towards Bohemia; and we make no question but they will be employ'd in forming the Blockade of Prague, which will afford Prince Lobkowitz an Opportunity of sending great Part of his Troops into Bavaria, in order to compleat the Ruin of the French.

Liege, Nov. 12. The Entry of the Hanoverian Troops into this State, and their Design to take Winter Quarters therein, hath given occasion for the publishing the following Paper.

'George Lovis, by the Grace of God Bishop and Prince 'of Liege, Duke of Bouillon, Marquis of Franchimont, 'Count of Looz, Horn, &c.

'Having learnt with extreme Surprize, that certain 'Troops of the King of Great Britain, Elector of Hano'ver, or at least in his Pay, design to lodge and take 'Winter Quarters in our Country, which is what we 'can never allow, or any ways acquiesce under; We 'hereby declare, that we solemnly protest against an En'terprize of this Nature, as contrary to the Constitu'tions of the Holy Roman Empire, to the last Imperial 'Capitulation, and to our Rights and Regalities: And as 'the Forces of this Principality are not sufficient to de'fend us from this Violence, we reserve to ourselves a 'Right of carrying our loud Complaints as well to his 'Imperial Majesty and the Dyet of the Empire, as to 'her Majesty the Queen of Hungary, and the King of 'Great Britain himself, as well as to all the other Poten'tates of Europe, especially those whose principal Con'cern it is that this Country, which has no Concern in 'the present War, should preserve that Tranquility and 'Neutrality to which it has a Right. And to the End 'that this Declaration and Protestation may come to the 'Knowledge of all the before-mentioned Powers, as well 'as to the Notice of the Commanders of these Troops, 'and to our own Subjects, our Will is, that it be printed 'in the French and Latin Tongues, and published in such 'Manner as we shall think fit.

'Given at our Palace at Liege, Nov. 3, 1742.'

GEORGE LOVIS,
P. L. Jaquet. Vt.
(L. S)
L. de Chesnet.

We flattered ourselves that the Hanoverian Troops would not have taken Quarters in the Towns upon the Meuse, but we have just now receiv'd Advice of the contrary, and that several Quartermasters belonging to those Troops are already arriv'd at Maseick, in order to assign Quarters for three Squadrons of Dragoons.

Extract from the Paris A-la-main.

Paris, Nov. 17. 'On the 13th the Royal Academy of 'Sciences held a publick Assembly, when M. de Marian, 'perpetual Secretary of the said Academy, read the Elo'ges of Dr. Halley, Astronomer to his Britannick Majesty 'and as great a Genius as any of the last Age, who died 'in January last; and of M. Bolduc, First Apothecary to 'the King.

'There were afterward read three Memoirs; the first, 'of M. Mounier, jun. which is the Preface of a Book he 'intends shortly to publish under the Title of *The Theory of 'Comets.* This Preface contains an historical Account of 'all that has hitherto been said on that Subject, and serves 'also to explain his Book. The Author speaks likewise of 'several Stars that have been observed in the North, so 'disposed as to form a new Constellation, of great Use 'in regulating the Path of a Comet in its highest Eleva'tion towards the North. To this Constellation he has 'given the Name of *Le Renne du Nord*, i. e. *The Northern 'Rain Deer.*

'M. de Jussieu read the second Memoir, in which it is 'prov'd, that certain Substances which many Botanists 'have taken for Plants, for Example, Coral, are nothing 'else but an Assemblage of a Multitude of little Cells, in 'which lodge a kind of small Insects called Pollipes of 'the Length of Three Tenths of an Inch; and as an infi'nite Number of these Cells make a kind of Network, 'this is what gave Occasion to the Error of our Bota'nists.'

IRELAND.

Armagh, Oct. 18. On the 11th Inst. we received the melancholy Account of the Death of his Grace Dr. Hugh Boulter, late Lord Primate. Our Cathedral is hung with Mourning as a Token of our Respect to the Memory of so generous a Patriot.

Yesterday a Sermon was preached on the Occasion, and an Anthem suitable thereto was sung by the Choir.

THE Daily Success which has constantly attended the Taking Dr. *BATEMAN's* PECTORAL DROPS, in the several Distempers of *Colds*, *Coughs*, Pains in the *Breast*, *Limbs*, and *Joints*; has gain'd them so universal a Character, that few Families care to be without them in their Houses. —— Besides the Distempers abovementioned, there *is no one Medicine, since the Discovery of the Art of Physick*, that will give a Speedier Relief and Ease in all *Rheumatick Pains*, *Gout*, *Stone*, *Gravel*, *Cholick*, *Fluxes*, &c. Innumerable Instances might be given of the Happy Effects thereof, but we choose to refer to a Book, call'd, *A Short Treatise of the Virtues of Dr. BATEMAN's* PECTORAL DROPS, given *Gratis*, at the Warehouse above-said; where all Shop-keepers, &c. in any City, Town, or Village, where these *Drops* are not already Sold, may be supplied, with good Allowance to sell again, by Directing or Sending to the PATENTEE,

WM. and CLUER DICEY.

☞ The Surprizing Encouragement, which by constant Success, these *most Valuable Drops* have, for upwards of *Twenty Years*, met with, not only in *Great Britain* and *Ireland*, but in all Parts of the *West-Indies*, and other *Foreign Countries*; has lately induced several mean and mercenary Pretenders to *Counterfeit* them; and by imitating our Seal, Bill of Directions, and Show-Boards, with our Method of Advertising, as near as they can or dare to do, without making them the same; thereby impose their *dangerous Compositions* upon the unwary and credulous Shop-keepers both in Town and Country, for the True and Genuine Sort.

The PATENTEE and Company therefore, in Gratitude for the universal good Reception they have *so long* met with, and for the Safety of those who for the future may be desirous of using the same, think themselves absolutely obliged to give this necessary Caution;

Which they earnestly request may be observed,

THAT the Bottle they Buy is not only Sealed with the Boar's Head, but has also these Words round it, BY THE KING's PATENT, as in the Margin; and also that the Names of the PATENTEE, *Benj. Okell*, *William* and *Cluer Dicey*, be in the Bill of Directions given with each Bottle; without which you may be assur'd it is a *notorious Counterfeit*, and may be of the most *dangerous Consequence*.

N. B. *That these* DROPS *are also Sold* Retale *(as well as* Wholesale*) at the Warehouse aforesaid, at* One Shilling *the Bottle, containing three Doses.*

The Incomparable POWDER for Cleaning the TEETH,

Has withstood, by its most excellent and known Virtue, Attempts of many repeated Counterfeits; some imitating it by the Name of Powder, others under several other Names; therefore pray take Notice, that the only true effectual and original Powder, is sold no where else, but as mentioned below: It is sent for in large Quantities form the Plantations beyond the Seas, where good Allowance is given, it is as effectual in the East and West Indies as at London.

IT has given surprizing Satisfaction to most of the Nobility and Gentry in England, many Years last past, that it hath been published, and vast Quantities of it still continue to be sold.

It is sold only at Mrs King's Toyshop, the Blue-coat against the Cross-Keys Tavern in Cornhill; and at Mrs Markham's Toy-shop, the Seven Stars under St. Dunstan's Church in Fleet-street, and no where else in England at each Box.

At once using it makes the Teeth as white as Ivory, tho' so black or yellow before, and effectually preserves them from rotting or decaying, continuing them sound to extream Age. It wonderfully cures the Scurvy in the Gums, Rheum or Defluction, kills the Worms at the Roots of Teeth, and thereby hinders the Tooth-ach. It also fastens loose Teeth, being a neat cleanly Medicine, of a pleasant and grateful Scent, and in Virtue far exceeds any ever yet found out for those Purposes.

All the Nobility, Gentry, &c. who send to Mrs Markham for the Powder for Teeth, are desired to give strict Orders to mistake the Shop, (MARKHAM at length in large Seven Stars) because most of the Toymen in her Neighbourhood, seeing Multitudes go to her Shop for it, have set up Counterfeits and sell their Stuff in Imitation of this true and approved Powder, in Prejudice to the Publick, &c.

The LIP-SALVE.

Which is so much esteemed, and of so many Years Experience, and whose Virtues vastly exceed any of the Counterfeits, since its first Publication, is sold at the Places at 1 s. each Box.

For in two or three Hours time it heals them, tho' rough or chopt; prevents the Skin from peeling, and makes them delicately soft and smooth, giving them a beautiful Colour; the Fragrancy of its Odour also renders the Breath fine and sweet, and it may be eaten for its Sweetness
